

Society of Petroleum Engineers Young Professionals

Cold Lake & Bonnyville Networking Event

Event Details

***Have you ever wondered what your peers
in Cold Lake are doing?
Do you wish you had more contacts in the
petroleum industry?
Do you like free food and drinks?***

If so we invite you to come out to the Society of Petroleum Engineers (SPE) Young Professionals (YP) first ever Cold Lake networking event!

Come out after a long week to relax with your peers while enjoying the free appetizers. RSVP early and your first drink is on us!

Special guest speaker Shane Freeson, Cenovus Primrose Director, will speak on the value of professional organizations such as SPE to the development of new graduates and young professionals.

About SPE

SPE is the largest individual membership organization serving professional engineers, scientists, and managers in the exploration and production segments of the worldwide oil and gas industry. With more than 104,000 members in 123 countries worldwide, SPE provides a global forum for the exchange of technology to meet the world's energy needs. SPE members from every oil-and-gas-producing region share their knowledge and experience through SPE conferences and exhibitions, workshops, forums, journals, books, training courses and section meetings. Members of SPE have a unique opportunity to benefit from this worldwide exchange of ideas and to contribute to the profession through SPE's programs and activities.
